VIGNESH K

Associate Software Engineer

📞 7604887884   ✉ vigneshtt03@gmail.com   📍 India, Nagapattinyam

Professional summary

As a web designer, my role goes beyond just making websites look attractive; it's about creating a holistic digital experience. I begin by conducting thorough research to understand the client's objectives, brand identity, and the specific needs of their audience. This allows me to craft designs that are not only visually appealing but also strategically aligned with the business goals.

I work on creating a clear, intuitive layout, ensuring that the navigation is smooth and that users can easily find what they're looking for. I prioritize responsive design, making sure the website looks and functions flawlessly across devices, whether it's a desktop, tablet, or smartphone.

Experience

Front End Developer   June 2025 - Now

ZOHO.India,Nagapattinam

As a web designer, my role goes beyond just making websites look attractive; it's about creating a holistic digital experience. I begin by conducting thorough research to understand the client's objectives, brand identity, and the specific needs of their audience.

I also focus on accessibility, making sure the website is usable for everyone, including people with disabilities, by following web accessibility guidelines (WCAG). Whether it's e-commerce, corporate, or personal websites, my goal is to create a seamless, engaging, and functional experience that leaves a lasting impression on users and supports the business's objective
